

Jiffylite<sup>®</sup> mailers are lightweight, air cellular cushioned mailers made with Bubble Wrap<sup>®</sup> material maintaining a layer of air for maximum cushioning. Seamless bottom increases cushioning protection and strength. Fully laminated construction and high-slip air cellular lining provide superior stiffness and facilitate insertion.

	DATA	REQUIREMENT	TEST METHOD
PROPERTIES	Self-Seal Strength	Minimum value 1.0 lbs. per inch.	TAPPI T-494 Tensile Strength
	Side Seam Strength	Minimum value 3.5 lbs. per inch	TAPPI T-494 Tensile Strength
	Gold Kraft Recycled Content* - Recycled Paper Fibers - Post-Consumer Fibers	Recycled Fibers = 100% Including 10% Post-Consumer	Sealed Air Spec.
	White Kraft Recycled Content - Recycled Paper Fibers - Post Consumer Fibers	- 20% of the total fiber weight - 20% of the total fiber weight	Sealed Air Spec.
	Crushed Bubble at Lip	1/4"	Sealed Air Spec.
	Tolerances	Width +/- 1/8" Length +/- 1/4"	Sealed Air Spec.
